PSYCHKIDS NFTS

PsychKids NFTs are a new, exciting way to experience the world of NFT. They make everything fair and square, from selection of private sales slots to Giveaways and new drops. All events are determined by the challenges that are shared to the community.

HOW DOES IT WORK

SCAVENGER HUNTS

A hunt for NFTs is made real. The hunt is across the internet for now. With time it will be all around the world (as our genesis collection drops).

The scavenger hunt will act as an awareness tool to educate people of different topics from security, NFTs to web3 as they go through the hunts (gaining new skills).

BRAIN TEASERS

Similar to the scavenger hunts, brain teasers are centered around the same topics (NFTs, security, web3 and many more).
